The following worksheet can assist you in choosing a college.

## **Directions:**

1. Circle one statement on each line. If your answer falls somewhere in between the two statements, check the middle column.
2. Add up the circles in each column.
3. Find out the answers to the questions you have checked in the middle column.
4. Complete the chart for more colleges if you are trying to decide between two, three, or more schools.

This should help make the decision clearer. Good luck!
